

SEPSIS HUDDLE TOOL

Next Steps:

- MD and RN go to bedside for assessment
- MD determines Sepsis Huddle Outcome:

X Outcome: (check one below)

<input type="checkbox"/>	<input type="checkbox"/>	Suspected Infection: Low suspicion for invasive infection
<input type="checkbox"/>	<input type="checkbox"/>	Suspected Sepsis: Without organ dysfunction
<input type="checkbox"/>	<input type="checkbox"/>	Critical Sepsis: With organ or cardiovascular dysfunction

- MD enters orders into EPIC **Order set # 11408: PEDS ED SEPSIS**
- MD to ask ESR to Everbridge page:
 - CODE SEPSIS Pharmacist only to prepare antibiotic therapy.
 - PPR if pharmacist is needed at bedside for vasopressors and RT is needed for intubation

Each provider is responsible for reviewing 100% of the Sepsis Screening Tool for their patients. This review is to make sure that the initial decisions were appropriate to the final patient outcomes.

MD Initials: _____ **Time Zero:** _____ **Date:** _____

88-4600-1 (Rev. 4/21)
